The Governors and Senior Management Team recognise that good management and careful maintenance of the School will reduce the risk of fire; also, that the School has a statutory responsibility under the Regulatory Reform Order (Fire Safety) 2005, issued 1st October 2006, to undertake a fire risk assessment of the premises and to act upon the findings of that assessment to reduce the danger from fire.

This policy sets out the responsibilities, arrangements and procedures to ensure that the School fulfils its statutory responsibilities and constantly works to provide and maintain a safe and secure environment for pupils, staff, contractors, commercial clients and any other visitors to the premises.
